

Bachelor of Science in Health Science Completion Program

Program

The Bachelor of Science in Health Science with an emphasis in Leadership is a degree completion program that meets the needs of adult learners who want to assume leadership roles within health care organizations. This program was designed for those who have an earned Associate of Applied Science degree or 30 credit hours in healthcare coursework. It is ideal for medical assistants, respiratory therapists, diagnostic sonographers, registered health information technicians, physical therapy assistants, occupational therapy assistants, and other healthcare professionals.

The BSHS completion program is offered in several formats to meet the needs of adult learners including online, hybrid, evenings, and weekends.

The BSHS completion degree curriculum offers courses in areas of general leadership such as interpersonal communication, team building and change strategies. It also provides specific curriculum in healthcare topics such as informatics in healthcare, healthcare management, and financial management.

The BSHS emphasis in Leadership differs from the concentration in Healthcare Management and Administration in admission, internship, and credit hour requirements.

Admission Requirements

- Completed Associate of Applied Science in Allied Health degree from accredited college or career training school.
- OR 30 credit hours in healthcare coursework.
- Students who have earned college credit must have a GPA of 2.0 or greater.
- Transfer students must provide official transcripts from each college or university attended. An official high school transcript is also requested.

Financial Assistance

Financial assistance is available for those who qualify. Visit www.methodistcol.edu/financial-aid for more information.
