Bachelor of Social Work

## Program Information

The newest of Methodist College's bachelor degree programs, the Bachelor of Social Work will prepare students for a professional practice that promotes individual, family, and community well-being, and social and economic justice. Graduates will be prepared to work as social work generalists and to take the required licensing exam to work as a licensed social worker.

*Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has.*

Margaret Mead, Cultural Anthropologist

According to the U.S. Department of Labor Occupational Outlook Handbook, social workers are employed in a variety of settings including hospitals, mental health clinics, schools, child welfare and human service agencies, or in private practice.

The expected length of time for students to complete the Bachelor of Social Work degree is four years, or eight semesters. The last two semesters of the program will require students to participate in a field practicum experience which will allow them to engage in a real world setting to further develop their knowledge and practical skills to be effective social workers. These practicum experiences will take place at various Central Illinois non-profit, human service organizations and hospitals with whom Methodist College already has developed strong partnerships.
