

Post-Master's Certificate: Nurse Educator

The purpose of the Nurse Educator program post-master's certificate is to prepare current nurses who have a master's degree to build a foundation of knowledge, skills, and attitudes to prepare them for future or enhance current roles as an educator. Nurse educators function as clinical educators in a variety of healthcare settings and as academic educators in a variety of higher and post-secondary educational settings. The nurse educator designs and implements educational programs for specific populations including patients, families, community groups, nursing students, technical students, and nurses who specialize in clinical expertise.

The American Association of Colleges of Nursing defines the nurse educator as a direct care role.

Completion requirements: 23 credits* ** ***

Nurse Educator Plan of Study

Nurse Educator Plan of Study	Old Course Number	New Course Number	Credit Hours
Advanced Health Assessment	N510	N5901	3
